Bitcoin (BTC)

BTC has performed well in 2020, rising 40% and once again approaching the $10,000 mark, although that is currently proving to be a resistance level.

Surprisingly, the belweather bitcoin has been outperformed by some other altcoins, such as **Tezos (XTZ)** up 118%**, Binance Coin(BNB)** up 120%, and **Lisk (LSK)**.up 450% this year.

.

In another crypto related matter, it has been reported by some Coinbase clients on Reddit that they have been restricted to a withdrawal limit if US$10 per day! This is currently hearsay until confirmed, but seems a very strange turn of events, if true.
