Apollo Consolidated : Finds New Gold Zones at Lake Rebecca Project

Apollo Consolidated (ASX:AOP) announced the discovery of new gold zones at the Lake Rebecca gold project in Western Australia, following results of recent geotechnical drilling.

Diamond drilling conducted for geotechnical purposes at the Jennifer structure uncovered up to 7.4 meters at 4.7 grams per tonne grade of gold outside the known resource.

Results further opened up the potential for further mineralised zones to the east of the geological structure.

Follow-up RC (reverse circulation) drilling will test the new discovery. The drill results will all be incorporated into the project's updated mineral resource, estimated to be published during Q2 2021.
