Facebook testing their Libra wallet, ‘Calibra’

Crypto news

Facebook has announced it’s moving forward with its own crypto currency, called ‘*Libra*‘.

Facebook has also announced their native wallet, which is to be called ‘Calibra’

Crypto news

Facebook has announced it’s moving forward with its own crypto currency, called ‘*Libra*‘.

Facebook has also announced their native wallet, which is to be called ‘Calibra’

According to people knowledgeable of the matter, Facebook users won’t have full control over their Libra, and will be required to undergo a registration process with official government issued ID, in order to use the wallet.
