03 Mining Intersects 5.1 g/t Au Over 5.1 m at Marban

03 Mining Inc. (TSX.V: OIII)

03 Mining provided new drilling results from the Marban project on its Malartic Property in the Val-d'Or region of Québec, Canada as part of its 250,000 metre drilling program.

The highlight was 5.1 g/t Au over 5.1 metres including 13.1 g/t Au Over 0.5 metres and 15.2 g/t Au over 0.7 metres in hole O3MA-21-033-W1 at the North Shear zone.

O3 Mining Intersects 5.1 g/t Au Over 5.1 metres near Marban's Norlartic Pit

MARCH 9, 2021

Toronto, March 09, 2021 – **O3 Mining Inc. (TSX.V: OIII; OTCQX: OIIIF)**("O3 Mining" or the "Corporation") is pleased to provide new drilling results from the Marban project on its Malartic Property in the Val-d'Or region of Québec, Canada as part of its 250,000 metre drilling program.

Drilling at Marban focuses on expanding mineralization outside of the proposed pit areas outlined in the Preliminary Economic Assessment ("Marban PEA") HERE.

The 2021-2022 drilling program consists of 125,000 metres to test extensions of the deposits and zones outside the PEA pit areas. New drilling results from two drill holes include:

Drilling Highlights:

- **5.1 g/t Au over 5.1 metres** including **13.1 g/t Au Over 0.5 metres** and **15.2 g/t Au over 0.7 metres** in hole **O3MA-21-033-W1** at the North Shear zone
- **2.7 g/t Au over 10.6 metres** including **26.9 g/t Au Over 0.5 metres** in hole **O3MA-21-033** near surface in new Triple North zone

03 Mining Management Comments

> *"The discovery of the new Triple North zone outside of the Norlartic pit shell continues to build our confidence in the potential to expand the mineable resources at Marban.*
>
> *"With 125,000 metres of drilling planned for the Marban project, our drill program continues to grow, as does the potential for new discovery,"*

President and CEO José Vizquerra.

The intercepts released today in holes **O3MA-21-033**,**O3MA-21-033-W1** and **O3MA-21-039** are part of six drill holes completed earlier this year to test extensions at depth of the North North and North Shear zones, which are both proposed for open pit mining in the 2020 Marban PEA. Assay results from four other drill holes in this area are pending.

A total of 51 drill holes have been drilled at Marban since the beginning of the campaign in August 2020, focusing on the Kierens, Kierens NW, Gold Hawk, Orion, MK, North Shear, North North, and Marban NE zones. Assay results from 23 drill holes are pending.

Table 1: Drill Hole Intercepts

(only intercepts above 5 g/t Au * m are reported, cut-off 0.3 g/t Au above 200 m and 1.0 g\t Au below 200 m)

Drill Hole	From (m)	To (m)	Interval (m)	Au (g/t)	Zone
O3MA-21-033	38.9	49.5	10.6	2.7	Triple North (new zone)
incl.	38.9	39.4	0.5	26.9	
incl.	43.8	44.5	0.7	8.9	
O3MA-21-033-W1	580.2	585.3	5.1	5.1	North Shear
incl.	581.1	581.6	0.5	13.1	
incl.	583.1	583.8	0.7	15.2	
O3MA-21-039	286.9	288.8	1.9	5.3	North North

NOTE: *True width determination is currently unknown but is estimated at 65-80% of the reported core length interval for* *the zones.*

Table 2: Drill Hole Details

Drill Hole ID	Azimuth(˚)	Dip(˚)	Length(m)	UTM E	UTM N
O3MA-21-033	206	-72	701	277929	5337816
O3MA-21-033-W1	206	-72	31	277929	5337816
O3MA-21-039	208	-73	666	277756	5337904

Hole **O3MA-21-033** intersected a new zone called Triple North, at a vertical depth of approximately 30 metres. The hole intersected stockwork quartz-carbonate veins with disseminated pyrite and visible gold within an albitized and sheared granodiorite. The interval returned **2.7 g/t Au over 10.6metres, including 26.9 g/t Au over 0.5 metres and 8.9 g/t Au over 0.7 metres**. The Triple North zone is open laterally and at depth.

The North Shear zone was intersected in hole **O3MA-21-033-W1** and confirmed the depth continuity of the mineralized zone. The mineralized interval has been intercepted 200 metres below the last historical intercept of the North Shear zone, and returned **5.1 g/t Au over 5.1 metres, including 13.1 g/t Au over 0.5 metres and 15.2 g/t Au over 0.7 metres,** expanding the potential of the zone further at depth. The mineralization is hosted within a quartz-carbonate vein with visible gold and disseminated pyrite at the sheared contact between mafic volcanics and a felsic dyke.

Hole **O3MA-21-039** intersected the North North zone at a vertical depth of approximately 200 metres and cross-cut an albitized granodiorite. Mineralization consists of quartz-carbonate-tourmaline veins with up to 2% disseminated pyrite. The intercept returned **5.3 g/t Au over 1.9 metres**.

About O3 Mining Inc.

O3 Mining Inc., an Osisko Group company, is a gold explorer and mine developer ready to produce from its highly prospective gold camps in Québec, Canada.

O3 Mining benefits from the support, previous mine-building success, and expertise of the Osisko team as it grows towards being a gold producer with several multi-million ounce deposits in Québec.

O3 Mining is well-capitalized and owns a 100% interest in all its properties (137,000 hectares) in Québec. O3 Mining trades on the TSX Venture Exchange (TSX.V: OIII) and OTC Markets (OTCQX: OIIIF). The company is focused on delivering superior returns to its shareholders and long-term benefits to its stakeholders.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com for information.

========

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
