

American Creek – Initiating coverage

American Creek Resources (TSX.V: AMK)

City Investors Circle of London is initiating coverage of American Creek Resources, after being alerted to their prospectivity by an experienced investor from our group.

AMK ticks all the boxes in terms of management quality, location (next to large gold deposits), and in a tier 1 jurisdiction. The current 40,000 m drill program looks set to provide newsflow in the near term.

Map of British Columbia, showing the major cities and the location of the prolific “Golden Triangle” in north B.C.

American Creek Resources (TSX.V: AMK)

City Investors Circle of London is initiating coverage of American Creek Resources, after being alerted to their prospectivity by an experienced investor from our group.

AMK ticks all the boxes in terms of management quality, location (next to large gold deposits), and in a tier 1 jurisdiction. The current 40,000 m drill program looks set to provide newsflow in the near term.

AMK has several properties, but the one that catches the eye is the **Treaty Creek (20% owned)** project, adjacent to Pretiums's Brucejack gold deposit, and Seabridge Gold's KSM deposit. These are seriously large gold deposits.

Ken Konkin, who developed Brucejack for Pretium is now the geologist for American Creek a very significant capture, as clearly he understands the geology of the area.

Comment

All in all given the location with major gold reserves almost next door, this looks to have serious potential in my opinion.

As the saying goes the best place to find a mine is next to a mine. There are no guarantees of course, but Treaty Creek looks very prospective, and being next door to large gold deposits means it could run quickly if the first drill results are good.

=====

American Creek Resources synopsis

American Creek Resources is a precious metals exploration company with high quality assets in significant mineral belts of British Columbia, close to infrastructure.

These include properties in B.C.'s prolific Golden Triangle, one of the richest areas of mineralisation in the world.

=====

City Investors Circle is based in

the financial district in the City of London.

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email: andrew@city-investors-circle.com for information.

=====

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.
