

American Creek Intersects Gold-Copper Porphyry

American Creek Resources (TSX.V: AMK)

Presented the ninth and final set of drill results for the 2022 exploration program from operator Tudor Gold at their flagship property, Treaty Creek, located in the Golden Triangle of British Columbia.

The Best intercept was 1.71 G/T AU EQ over 180 m

Location	British Columbia, Canada

AMERICAN CREEK INTERSECTS STRONG GOLD-COPPER PORPHYRY MINERALIZATION RETURNING 1.71 G/T AU EQ OVER 180 M WITHIN 489 M OF 1.12 G/T AUEQ WITHIN THE STEP-OUT AREA OUTSIDE OF THE GOLDSTORM DEPOSIT AT TREATY CREEK JOINT VENTURE

■

Cardston, Alberta—(Newsfile Corp. – November 24, 2022) – **American Creek Resources Ltd. (TSX.V: AMK) (“the Corporation” or “American Creek”)** is pleased to present the ninth and final set of drill results for the 2022 exploration program (the “Program”) from operator Tudor Gold at their flagship property, Treaty Creek, located in the heart of the Golden Triangle of Northwestern British Columbia.

Darren Blaney, American Creek President and CEO stated:

“From everyone at American Creek we congratulate and commend the Tudor team on the completion of what can only be described as an amazingly successful Treaty drill program!

“Given that the gold grades keep getting better and better and the amount of silver and copper keeps increasing as the drilling advances, there is obviously tremendous blue sky yet to come. And incredibly, the Goldstorm deposit is still open in every direction and at depth!

“We are very much looking forward to seeing an updated resource.”

Ken Konkin, Tudor Gold President and CEO, commented:

“We are very pleased to announce results from the Treaty Creek exploration campaign with the release of five drill holes completed on our Goldstorm Deposit.

“The best result was from the northern step-out area well outside the estimated resource area with hole GS-22-159. The CS600 domain contained 1.71 g/t Au EQ over 180 meters (m) with 0.92 g/t Au, 6.10 g/t Ag and 0.61 % Cu. This drill hole

ended in strong copper mineralization and this composite was centred on a much larger composite of 489.0 m averaging 1.12 g/t Au EQ (0.66 g/t Au, 3.60 g/t Ag, 0.36 % Cu).

“Ground conditions prevented the completion of this drill hole. Also, of significance, silver grades were elevated within several holes of the newly discovered northern extension of the CS600 domain. Drill hole GS-22-162 intersected 1.34 g/t Au EQ over 145.5 m with 0.61 g/t Au, 12.01 g/t Ag and 0.5 % Cu.

“In addition to expanding the deposit to the north, we were successful in confirming the near-surface, southeasterly expansion of the newly discovered Route 66 Zone that yielded 0.95 g/t Au EQ over 42.0 m.

“We continue to observe higher gold, silver and copper grades throughout the northern step-out expansion of the Goldstorm Deposit than the grades derived from the 2021 Initial Resource Estimate.

“Despite significantly expanding the resource limits of the Goldstorm Deposit, it remains open in all directions and at depth. Our geologists will focus their attention on refining the geological model and completing an updated Goldstorm resource for 2023.

“In addition, numerous samples were collected for on-going petrographic, mineralogical and metallurgical studies that will be carried out during the following winter months.

"We thank and congratulate our staff and contractors for their safe and professional conduct in making the 2022 exploration season at Treaty Creek such a successful program."

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
