AMERICAN CREEK INTERSECTS STRONG GOLD-COPPER PORPHYRY MINERALIZATION RETURNING 1.82 G/T AUEQ OVER 114.0 M WITHIN 592.5 M OF 1.16 G/T AUEQ IN NORTHERNMOST STEP-OUT SECTION OF THE GOLDSTORM DEPOSIT, AT JOINT VENTURED TREATY CREEK

Cardston, Alberta—(Newsfile Corp. – November 1, 2022) – **American Creek Resources Ltd. (TSX.V: AMK)** (“the Corporation” or “American Creek”) is pleased to present the eighth set of drill results for the 2022 exploration program (the “Program”) from operator Tudor Gold at their flagship Treaty Creek property, located in the heart of the Golden Triangle of Northwestern British Columbia.

The Program at the Treaty Creek property includes an aggressive resource expansion and delineation plan for several areas, including the Goldstorm Deposit and the Eureka and Calm Before the Storm Zones.

Results included in this press release are reported from five diamond drill holes that were drilled on the Goldstorm Deposit, Copper Belle Deposit, and Konkin Zones (Sections K, L, 98+50 NE and 94+50 NE).

At Goldstorm, one out of two holes were drilled partially or completely outside the 2021 NI 43-101 Mineral Resource Estimate area .

Ken Konkin, Tudor Gold President and CEO, commented:

“Our entire team is very pleased to see the continued success of the exploration program in the northern-most limits of the Goldstorm Deposit within domain CS600.

“We continue to intersect pulses of very strong gold and copper mineralization with 1.82 g/t Au EQ (1.04 g/t Au, 5.17 g/t Ag and 0.61% Cu) over a 114-metre (m) intercept.

“Precious and base metal values were equally impressive over double this same intercept averaging 1.50 g/t Au EQ over 235.5 m hole GS-22-158 and values were comparable to the hole above this, GS-22-151-W1 with 1.27 G/T Au EQ over 300 m.

“GS-22-158 successfully undercut GS-22-151-W1 by

approximately 100-150 m and ended in strong copper-gold mineralization as did GS-22-151-W1.

“In-fill drilling successfully added confidence with our resource model as GS-22-156 intersected 1.0 g/t Au EQ over 294 m within the 300H domain. This intercept was punctuated by a high-grade gold intercept of 28.7 g/t Au and 16.2 g/t Ag (28.9 Au EQ) over 1.5 m near the bottom of the composite.

“In addition to increasing our deposit foot-print northwards, we were also successful in expanding mineralization to the southwest with a **100 m step-out drill hole CB-22-01 which intersected significant near-surface gold values over 168 m that averaged 0.68 g/t Au EQ.**

“This hole was drilled well outside the area of the 2021 initial resource model for the Goldstorm Deposit demonstrating that mineralization remains open in all directions and to depth.

“Crews will be wrapping up the exploration program this week and will be collecting several new composites for metallurgical tests with samples for petrographic and ore microscopy studies from our Stewart-based core facility.

“Our drills have been de-mobilized and both upper and lower camps have been shut down. We have several drill holes awaiting results from the lab and we will announce these results shortly after we receive them.”

Darren Blaney, President, and CEO of American Creek, commented:

"We are very pleased to announce the 8th set of results from this year's drill program.

The magnitude of the grades that have come from this year's drilling will be prolific when it comes time to update the resource estimate. The intersections released today are another remarkable stepping stone in the story of Treaty Creek.

"We would like to commend the efforts of our partner Tudor Gold for their continued dedication to the project through the current challenging market conditions."

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
