ARIS MINING ANNOUNCES HIGH GRADE DRILL RESULTS FROM ONGOING SEGOVIA OPERATIONS EXPLORATION PROGRAM

Vancouver, Canada, August 12, 2024 – Aris Mining Corporation (Aris Mining or the Company) (TSX: ARIS; NYSE-A: ARMN) announces the results received to date from its ongoing 2024 exploration drilling program at its Segovia Operations in Colombia, which is now 70% complete.

Neil Woodyer, CEO of Aris Mining, commented

“Our drilling program continues to deliver high grade intersections, confirming the continuity and extension of the large scale veins at depth and along strike, and supporting Segovia’s status as one of the highest grade gold operations in the world.

“The identification of new, near mine mineral resources are expected to progressively lengthen the currently defined mine life, and to provide future low development cost mill feed to supplement the processing plant expansion currently underway.

“We are especially excited by the results of our ongoing data verification and new drilling programs at Cristales, which are expected to result in significant additions to inferred mineral resources and have the potential to connect the Cristales vein with the substantial vein systems at El Silencio”.

Exploration Program

The intersections provided in this news release include results received since the Company's previous exploration news release dated August 16, 2023, which had a data cut-off date of July 31, 2023, up to validated sample assays available as of April 1, 2024.

These results are expected to be included in the Company's updated mineral resource and reserve estimates expected in the fourth quarter of 2024.

The Segovia vein system is extensive, with three of the four operating mines following relatively flat lying vein systems ranging between 1.5 and 2.8 kilometres (km) along strike.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city

professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
