AVINO ANNOUNCES Q2 2026 PRODUCTION RESULTS

Avino Silver & Gold Mines Ltd. (ASM: TSX/NYSE American, GV6:

FSE) a long-standing silver producer in Mexico, reports second quarter 2026 production results of 267,305 silver ounces (“oz”), 2,178 gold oz and 729,929 pounds of copper (“lbs”), for a total of 534,945 silver equivalent[1] (“AgEq[1]”) oz.

David Wolfin, President and Chief Executive Officer of Avino Silver said,

> *“The second quarter of 2026 represented a meaningful increase in contribution from La Preciosa with a 59% increase in silver production, as we continue to move the project forward.*

> *“Mill performance remained solid during the quarter, with tonnes milled exceeding expectations and contributions from La Preciosa development ore continued to increase throughout the quarter.*

> *“We will continue to optimize performance across our operations to advance our transformational growth plans.*

> *“As noted previously and as La Preciosa advances, we expect that total 2026 production will be more heavily weighted to the second half of 2026.”*

PRODUCTION HIGHLIGHTS – Q2 2026

- **Steady Progress at La Preciosa:** Ongoing extraction, haulage, and processing of mineralized development material from La Preciosa was above plan in Q2 2026, primarily due to Mill Circuit 2 becoming available. This increased throughput was offset by intentional processing of lower-grade development ore during elevated metal prices, that would have otherwise been stockpiled.
- **Increased La Preciosa Development Production:** Avino produced 534,945 silver equivalent[1] ounces in Q2 2026, a decrease from Q2 2025, and was a result of lower copper production. The decrease reflects planned mining sequencing into lower copper grade areas near the historical open pit operations at Avino. At La Preciosa, development production increased 59% from Q1 2026, contributing 100,658 AgEq[1] ounces, and consisting of 84,806 silver oz and 182 gold oz.
- **Consistent Mill Throughput:** In Q2 2026, mill throughput remained on plan with 184,293 tonnes processed from both Avino and La Preciosa. Continued steady mill performance and availability reflects the impact of targeted upgrades and automation initiatives led by our operations and maintenance teams over recent years.
