

# Bardoc Gold Drills High Grade Gold at Aphrodite

## Bardoc Gold (ASX: BDC)

Reported new broad high grade gold intercepts with new drilling at the shallow Sigma Lode, and extended Gamma Lode, located outside the current resource.

This confirms the growth potential at their Aphrodite Deposit.

**NEW HIGH-GRADE INTERCEPTS  
CONFIRM OUTSTANDING  
GROWTH POTENTIAL AT 1.7 M oz  
APHRODITE DEPOSIT**

Recent drilling has further expanded the shallow Sigma Lode target and extended Gamma Lode, intersecting broad, high-grade mineralisation outside the current Resource including 5m @ 17.7g/t Au from 109m in 21APRC0019.

## Key Points:

- Excellent new assay results returned from the Sigma Lode, located immediately south-east of the planned open pit at the cornerstone 1.7Moz Aphrodite Deposit, part of the 3.07 M oz Bardoc Gold Project.
- The new intercepts, which are all located outside the current Resource model, highlight the potential for future upgrades and possible incorporation in Ore Reserves once modelling and optimisations are completed:
  - 5m @ 17.7g/t Au from 109m in 21APRC0019
  - 15m @ 1.49g/t Au from 97m in 21APRC0027
  - 7.7m @ 2.98g/t Au from 133.3m in 21APD0007
- These results support those reported in the ASX announcement of 19 November 2020, [HERE](#), which included:
  - 21m @ 3.94g/t Au from 147m including 7m @ 6.12g/t Au from 161m 20APRC0013
  - 7m @ 2.77g/t Au from 177m in 20APRC0015
  - 8m @ 2.92g/t Au from 78m in 20APRC0024
- Gamma Lode (not currently in the Resource model), located 450m east of the Alpha Reserve Pit, has intersected promising geology with excellent assay results including:
  - 9m @ 2.36g/t Au from 70m in 21APRC0007
  - 16m @ 1.04g/t Au from 76m in 21APRC 0008
- Diamond core drilling on Sigma Lode has provided vital structural data, which is improving the Resource model and future exploration targeting.
- Diamond drilling is underway to test depth extensions at Zoroastrian, outside the current Resource.
- Air-core drilling across the Bardoc Tectonic Zone is now complete with assays awaited.
- Financing discussions for the Bardoc Gold Project are progressing, with a Final Investment Decision on track for the September 2021 Quarter.

## City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com) for information.

## This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
