Cabral Gold Finds New Area of Mineralisation

Cabral Gold (TSX.V: CBR)
Provided assay results from eleven new trenches excavated along strike and immediately west of the previously drilled Machichie Main zone within the Cuiú Cuiú gold district.
Highlight was trench CT0049, which returned 96.5m @ 0.6 g/t gold.

Cabral Gold	**TSX.V : CBR**
Stage	**Exploration**
Metals	**Gold**
Market cap	**C$42.5 m @ 30.5c**
Location	**Cuiú Cuiú , Tapajos, Para State, Brazil**

Cabral Gold Identifies New Area of Extensive Gold Mineralization

West of Machichie Main Zone, Cuiú Cuiú Gold District

Vancouver, British Columbia – August 4, 2022 – **Cabral Gold Inc. (TSX.V: CBR)** ("Cabral" or the "Company") is pleased to provide assay results from eleven new trenches excavated along strike and immediately west of the previously drilled Machichie Main zone within the Cuiú Cuiú gold district.

Highlights are as follows:

- Trench CT0049 returned 96.5m @ 0.6 g/t gold including;
- 7.7m @ 5.8 g/t gold, including 0.5m @ 77.3 g/t gold
- 1.1m @ 5.4 g/t gold, including 0.5m @ 11.6 g/t gold

- Trench CT0045 returned 138m @ 0.5 g/t gold including three distinct higher-grade zones:
- 8m @ 1.5 g/t gold
- 15m @ 1.7 g/t gold
- 2m @ 8.9 g/t gold

- All of the Machichie West trenches encountered gold mineralization in weathered bedrock, and cut multiple mineralized structures within a 500m x 300m area indicating the presence of a large new mineralized area on the western side of the east-trending Machichie Main zone

Alan Carter, Cabral's President and CEO commented;

“These recent trench results are highly significant for three reasons.

“Firstly, they indicate that the east-trending Machichie Main zone can be traced for at least 350m west of previous drilling, significantly increasing the strike extent, and in particular extending the high-grade zone previously identified in recent trenching. The Machichie Main zone remains open to the west.

“Secondly, and perhaps more importantly, these results suggest the presence of a large new mineralized body in intrusive rocks comprising a swarm or array of numerous gold-bearing quartz veins and veinlets.

“Trenching suggests that this new zone is northeast-trending parallel to the general trend of the veins. The array extends over an area of at least 500 x 300m, and includes the previously identified Machichie SW veins. This mineralized area remains open in every direction.

“Finally, the trenching program suggests a significant amount of oxide material has likely resulted from the weathering of this new mineralized zone which should add to the overall inventory of gold-in-oxide mineralization, which already includes three gold-in-oxide blankets discovered thus far at Cuiú Cuiú”.

City Investors Circle is based in

the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

=======

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
