Calidus Announce Record Gold Production at Warrawoona

Calidus Resources Limited (ASX:CAI) is pleased to report record quarterly
production at Warrawoona of 16,177 ounces.

*The strong result means Calidus has met its guidance for the six months to 30 June
2023 of 31,000 – 36,000oz by producing 31,364oz.*

The record production is particularly pleasing given the impact of Tropical Cyclone Ilsa during the quarter.

All-in sustaining costs (AISC) for the June quarter are not finalised but are
expected to be within guidance of A$2,000 – A$2,250/oz.

June production of 5,745 ounces was a record at Warrawoona and continues the
trend of steadily increasing production on both a monthly and quarterly basis.

This sets an excellent platform for continued growth through higher-grade pits
and undergrounds.

Further details will be available in the full June 2023

Quarterly Report later this month.
