Canuc Resources Adds to their Land Position at San Javier

November 3rd, 2021 **Canuc Resources Corporation** (“Canuc” or the “Company”) (**TSX-V: CDA**) (**OTCQB: CNUCF**) is pleased to announce acquisition by staking of 2 additional claims in the San Javier mining and exploration camp. The newly acquired claims

are contiguous with existing claims and cover extensions on one of the Company's principal exploration targets.

Canuc began acquiring claims at San Javier in 2010. The Company now has 100% ownership of 24 contiguous claims in the heart of the San Javier exploration and mining camp. In 2020 discovery of an extensive silver-mineralized breccia system combined with intense magnetite swarms resulted in IOCG deposit potential hypothesis.

The San Javier area has a mining history dating back to 1704.

Renewed Interest – San Javier Exploration and Mining Camp

The San Javier area first came back into focus in August of 2020 when **Barksdale Resources Corp. (TSX-V: BR0)** announced an earn in on claims held in the San Javier area. These exploration claims are contiguous with Canuc's ground position to the south, west and east.

Further interest in the San Javier area came in October 2020 when **Osisko Development Corp. (TSX-V: ODV)** announced acquisition of the San Antonio claims group. The San Antonio claims acquired by Osisko Development Corp. are contiguous with Canuc claims to the east.

Canuc Resources management comments

"The San Javier area has a development history dating back over 300 years."

“The Canuc team believes that we have significant discovery potential based on revised geological interpretations, and that our exploration claims are centrally located in what has become a dynamic mining and exploration camp.”

Christopher Berlet, President & CEO of Canuc Resources Corp.
