Colonial Coal Highlighted by Simply Wall St.

Colonial Coal (TSX.V: CAD) Simply Wall Street research has highlighted Colonial Coal as “one of three stocks to consider” in a recent research report.

CAD’s price has fallen back recently as the price of coking coal has weakened, but has started to climb again in the last few weeks, as a result of increasing Chinese industrial activity, highlighting an undervaluation opportunity.

There has been speculation that Colonial is the target of M

and A activity as the metallurgical coal sector is going through a lot of corporate activity.

A run in the coking coal price might just be the catalyst to attract that initial bid.
