### **Cornish Metals Adds a Second Drill Rig to United Downs Drill Programme**

VANCOUVER, British Columbia, Sept. 23, 2021- **Cornish Metals Inc. (TSX.V / AIM: CUSN)** (“Cornish Metals” or the “Company”) reports that it has added a second drill rig to its ongoing 8,000 metre (“m”) – 9,000m drill programme at United Downs, Cornwall, UK.

The second rig will explore Trenares Lode, a new target located approximately 900m south of UD Lode where drilling is continuing (see[map](#)). The most recent details on the status of drilling at the UD lode were provided in Cornish Metals’ news release dated the 30th August 2021.

## Trenares Lode

Is located 300 m south of the former producing Mount Wellington Mine, is a polymetallic (copper – tin – zinc) target that was discovered in the 1970s by Cornwall Tin & Mining Ltd.

The lode was first identified through surface drilling and subsequently an exploration drift was extended towards the lode from Mount Wellington 4 Level, however no further exploration work was conducted after Mount Wellington Mine closed in 1977. The Company believes the Trenares Lode represents a prospective new target in an area where no historic mining has taken place.

Drilling has commenced at Trenares Lode and the initial programme will involve up to 12 holes from four locations over the next three months.

## Cornish Metals management comments

*“The ongoing United Downs drilling programme focused on the UD Lode has successfully demonstrated the existence and the continuity of mineralisation in the holes returned to date.*

*“The addition of a second drill rig allows us to test additional targets that have been identified. We look forward to sharing results as they are received.”*

# Richard Williams, CEO.

## ABOUT CORNISH METALS

Cornish Metals is exploring and evaluating development options for the South Crofty tin and United Downs copper / tin projects, plus additional mineral rights located in Cornwall, UK. The additional mineral rights cover an area of approximately 15,000 hectares and are distributed throughout Cornwall. Some of these mineral rights cover old mines that were historically worked for copper, tin, zinc, and tungsten.

## City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting

companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)

**This website is not sponsored, we are truly independent, and will always remain so.**

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
