# **CORNISH METALS COMMENCES 9,000 METRE DRILLING PROGRAMME AT WIDE FORMATION TARGET, SOUTH CROFTY TIN PROJECT**

Vancouver, September 19, 2023 **Cornish Metals Inc. (AIM / TSX.V: CUSN)** (“Cornish Metals” or the “Company”), a mineral exploration and development company focused on its South Crofty Tin Project (“South Crofty” or the “Project”) in Cornwall, United Kingdom, is pleased to report that it has commenced a 14-hole / 9,000 metre (“m”) exploration drilling programme at the Wide Formation target in the Carn Brea South exploration area, located along the southern boundary of the South Crofty underground mine permission area.

The drill programme is designed to test the geometry and the continuity of tin mineralisation within the recently discovered Wide Formation target (see news release dated January 10, 2023).

## **Key Points**

- The Wide Formation represents a high-grade tin target inferred to lie parallel to, north of, and beneath the Great Flat Lode;

- Discovery hole CB21-002 intersected 2.77m grading 0.99% tin (“Sn”) within a 12.14m wide zone of strong alteration and disseminated tin mineralisation;
- The alteration style in the Wide Formation, comprising pervasive tourmaline and quartz (termed “blue peach”), is similar in character to that associated with No 8 Lode, one of the most prolific tin producing lodes in the latter years of operation of the South Crofty mine;
- The drill programme will test an area measuring 2,500m along strike (northeast to southwest) and 500m downdip (north to south).

The Great Flat Lode district comprised a series of copper and tin mines that covered a strike length of approximately 5 kilometres (“km”).

## **Richard Williams, CEO and Director of Cornish Metals, stated;**

*“We are very excited to start this drill programme, testing what we believe represents a new district-scale target that is only 500m – 1,000m south of the Tuckington Decline at South Crofty.*

*“It reflects the opportunity to make new discoveries close to the South Crofty underground infrastructure and, if the programme is successful, we believe there is potential to not only grow the Mineral Resource base, but*

*also to potentially expand production rates if the project advances through to mine development."*

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)
