# Gold Road Resources Release an Updated Corporate Presentation

Gold Road Resources (ASX: GOR) released an updated corporate presentation following their recent results and AGM.

Gold Road Resources have risen around 40% in price recently as the gold price has recovered from its recent low.

## Gold Road Resources

Gold Road is a mid-tier Australian gold producer with a Tier 1 mine and exploration projects in the underexplored and highly prospective Yamarna Greenstone Belt in Western Australia's north-eastern Goldfields.

Gold Road owns 50% of the world-class Gruyere gold mine, which was developed in Joint Venture with Gold Fields Ltd and produced first gold in June 2019.

Gruyere is forecast to lift production to a sustainable 350,000 ounces (100% basis) annually per annum by 2023 whilst maintaining a mine life of at least 10 years, making it one of Australia's largest and lowest-cost gold mining operations.

The Gruyere JV has Open Pit Mineral Resources of 6.7 million ounces, including an Ore Reserve of 3.48 million ounces (100% basis). In February 2021, Gold Road reported a 50% attributable Maiden Underground Inferred Mineral Resource of

0.87 million ounces of gold from beneath the December 2020 Gruyere Open Pit Resource.
