

Heliostar Drills 83.2m Grading 17.35 g/t Gold from 76m

Heliostar Metals TSX.V: HSTR)

Announced additional results from the current drill program at its 100% owned Ana Paula project in Guerrero, Mexico.

The program aims to convert inferred ounces to higher confidence classifications. It will also support the ongoing Feasibility Study around the Ana Paula deposit.

Heliostar Drills 83.2m Grading 17.35 g/t Gold from 76.0m and Expands Program to 20,000m

Vancouver, Canada– November 24, 2025 – **Heliostar Metals Ltd.** (**TSX.V: HSTR**, OTCQX: HSTXF, FRA: RGG1) (“Heliostar” or the “Company”) is pleased to announce additional results from the current drill program at its 100% owned Ana Paula project in Guerrero, Mexico.

The program aims to convert inferred ounces to higher confidence classifications. It will also support the ongoing Feasibility Study and testing the next exploration targets around the Ana Paula deposit.

HIGHLIGHTS:

- 83.2m grading 17.35 g/t gold from 76.0 m, including
 - 46.65 m grading 27.35 g/t gold from 88.95 m
- 70.7m grading 9.38 g/t gold from 49.65 m
- 92.1 m grading 4.33 g/t gold from 97.1 m
- 65.2 m grading 5.39 g/t gold from 152.2 m
- Ana Paula drill program to be extended to 20,000 metres of drilling

□

Heliostar CEO, Charles Funk, commented,

“It’s rare to find a deposit that consistently produces 50-100m wide drill intercepts of these gold grades.

“Ana Paula is wide, high-grade, and shallow, with good underground mining conditions. These factors drive the low \$1,011 all in sustaining cost in our new PEA for the project. It will also drive high margins at the project.

“The current program is focused on upgrading inferred ounces to higher confidence categories and the new data will be incorporated into a Feasibility Study. The lower costs drive a lower cut-off grade in the planned mine that opens the potential for more inferred material conversion.

“To maximize this opportunity, we will expand the program by 33% to 20,000 metres to allow for more infill and exploration drilling at Ana Paula.

“Across the Company, we have another study, a Prefeasibility Study for Cerro del Gallo, planned this quarter. We are also drilling at San Agustin and La Colorada.

“These programs should increase production and unlock the value we see in our deep growth portfolio.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
