Impact – Lake Hope HPA Pre-Feasibility Study and Maiden Ore Reserve

Released 16 Jun 25

LAKE HOPE RE-FEASIBILITY STUDY AND MAIDEN ORE RESERVE

Impact Minerals Limited (ASX:IPT) is pleased to announce the positive results of a Preliminary Feasibility Study (PFS) for the Company's Lake Hope High Purity Alumina (HPA) Project, located 500 km southeast of Perth in the Tier 1 mining jurisdiction of Western Australia. The PFS results align with those of the Scoping Study on the project released to the ASX on November 9th 2023.

The PFS highlights the project's exceptionally strong economics and outlines a pathway for Lake Hope to become a global supplier of low-cost, low-carbon HPA, benefiting both the local Ngadju Aboriginal Native title holders and the broader community.

The robust economics stem from the unique characteristics of the Lake Hope deposit, which facilitate cost-effective mining and processing.

The PFS confirms that, to the best of Impact's knowledge based on published data, the Lake Hope project could be among the lowest-cost producers of HPA globally, potentially by a significant margin of at least 30%.

Given these strong fundamentals, Impact will issue 120 million shares, escrowed for 12 months, to exercise its option to acquire an 80% interest in Playa One Pty Ltd, which owns the Lake Hope assets and intellectual property, including two patents for metallurgical processes (ASX Release March 21st 2023).

Work will now commence on a Definitive Feasibility Study (DFS), which will include the construction of a pilot plant to produce HPA samples at scale for discussions on offtake agreements. The pilot plant project, currently underway, will be part-funded by the recent federal government grant awarded to Impact Minerals in collaboration with CPC Engineering and Edith Cowan University (ASX Release October 22nd 2024).

Lake Hope PFS Summary

Highlights

- Very strong economic metrics and low-cost production:
NPV10 A\$1.165billion (with no by-product revenue)
- Capex A\$259 million
- Opex US\$5,860 per tonne excluding by-product credit
- Potential Opex of <US\$4,500 with by-product credit
- Maiden Probable and Proved Ore Reserve of:
1.7 Mt at 26% Al₂O₃ for 450,000 tonnes of contained Al₂O₃.
- Election to proceed to an 80% interest in Playa One Pty Ltd providing Impact with 80% ownership in the Lake Hope resource and intellectual property.
- Definitive Feasibility Study to commence with construction of pilot plant and investigation into the integration of Lake Hope with the HiPurA process.

Impact Minerals' Managing Director, Dr Mike Jones, said, “
“The Lake Hope PFS clearly demonstrates that Impact Minerals is now on the cusp of delivering a significant, low-cost and highly scalable HPA project.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
