Tiernan Gold Corp. (TSX.V: TNGD) is a Canadian mining company , focused on advancing its flagship **Volcan Gold Project** in Chile's Atacama Region, within the prolific Maricunga Gold Belt.

The company was via a reverse takeover and public listing, completed late 2025.

Tiernan holds 100% ownership of the Volcan project—a large-scale, undeveloped gold asset with approximately 9.8 million ounces of Measured and Indicated gold resources (plus additional Inferred ounces).

Tiernan Gold emphasizes disciplined de-risking through engineering studies, exploration, and development toward production readiness, benefiting from a mining-friendly jurisdiction with nearby operating mines.

The company is well-funded (for ongoing technical work and updates on the project, having recenty raised C$53 million.

Management is experienced in creating shareholder value with early stage companies, the project is located in a good jurisdiction, in a prolific gold belt, amongst other major mining companies, so ticks all the boxes for me to consider making an initial investment.
