**Kaiser Reef Managing Director,
Jonathan Downes, said:**

“This has been a great quarter for Kaiser, marked by a

successful first full quarter of ownership at the Henty Gold Mine, which produced well over 8,000 ounces of gold.

“Henty has solidified its position as our flagship production asset, and we are progressing on several fronts to realise continued upside from Henty.

“Our portfolio-wide activities have progressed significantly. Exploration drilling at Maldon has recommenced, targeting zones under the Union Hill Open Pit, and we are working through multiple pathways to ensure that the Maldon Processing Plant remains operational and ready for future mining production.

“Whilst we have committed to transitioning the A1 Gold Mine to care and maintenance, overall, we think this will place the company in a much stronger position going forward and ensure we realise the inherent value of the historic Maldon Gold Project.

“With robust gold production, a strong pipeline of exploration and development opportunities and a solid balance sheet, Kaiser is well positioned to capitalise on a surging gold price. I’m very pleased with where Kaiser is now positioned, and we are well set for organic production growth.”
