

Karora Drills Highest Grade To-Date at Beta Hunt

Karora Resources Inc. (TSX: KRR)

Announced high-grade drill results from the Larkin Zone as part of its ongoing underground diamond drill program at Beta Hunt.

These included the following intersections: 29.8 g/t over 7.8 metres, 8.7 g/t over 4.0 m, and 4.2 g/t over 6.9 m.

Karora Resources	TSX: KRR
Stage	Production + Development + Exploration
Metals	Gold + Nickel
Market cap	C\$467 million @ C\$2.75
Location	Kalgoorlie, Western Australia

Gold in drill core from Beta Hunt mine, Western Australia

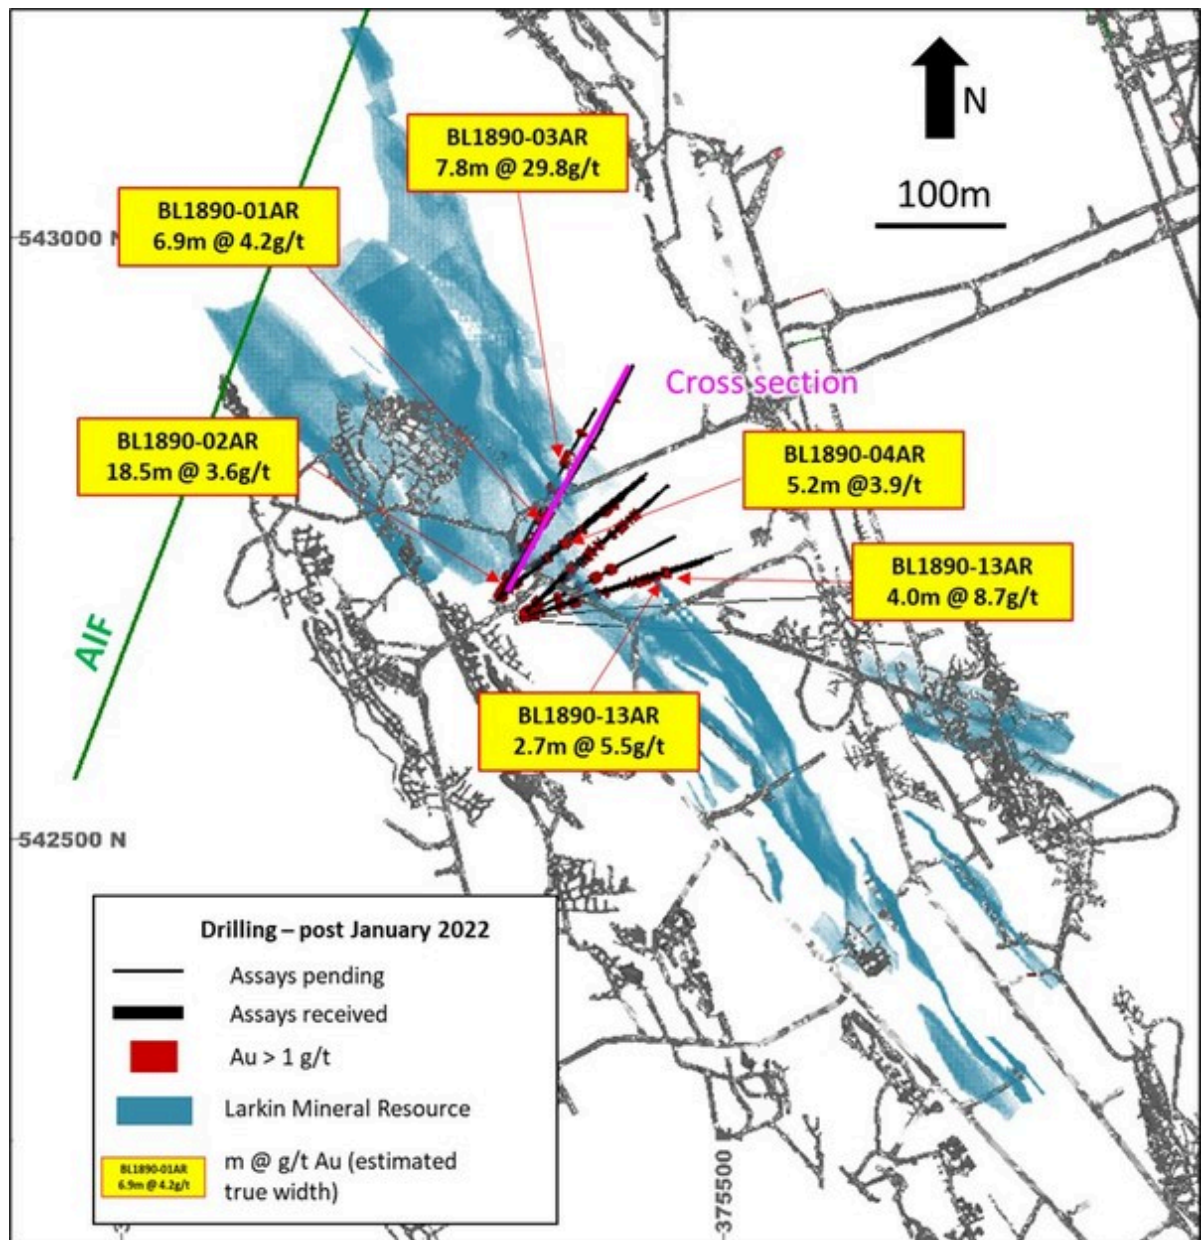

Karora Drills Highest Grade Interval To-Date At Beta Hunt's Larkin Zone Reporting 29.8 G/T Gold Over 7.8 Metres

TORONTO, July 19, 2022 /CNW/ – **Karora Resources Inc.** (TSX: **KRR**) (OTCQX: KRRGF) (“Karora” or the “Corporation”) is pleased to announce high-grade drill results¹ from the Larkin Zone as part of its ongoing underground diamond drill program at Beta Hunt, which includes the following intersections:

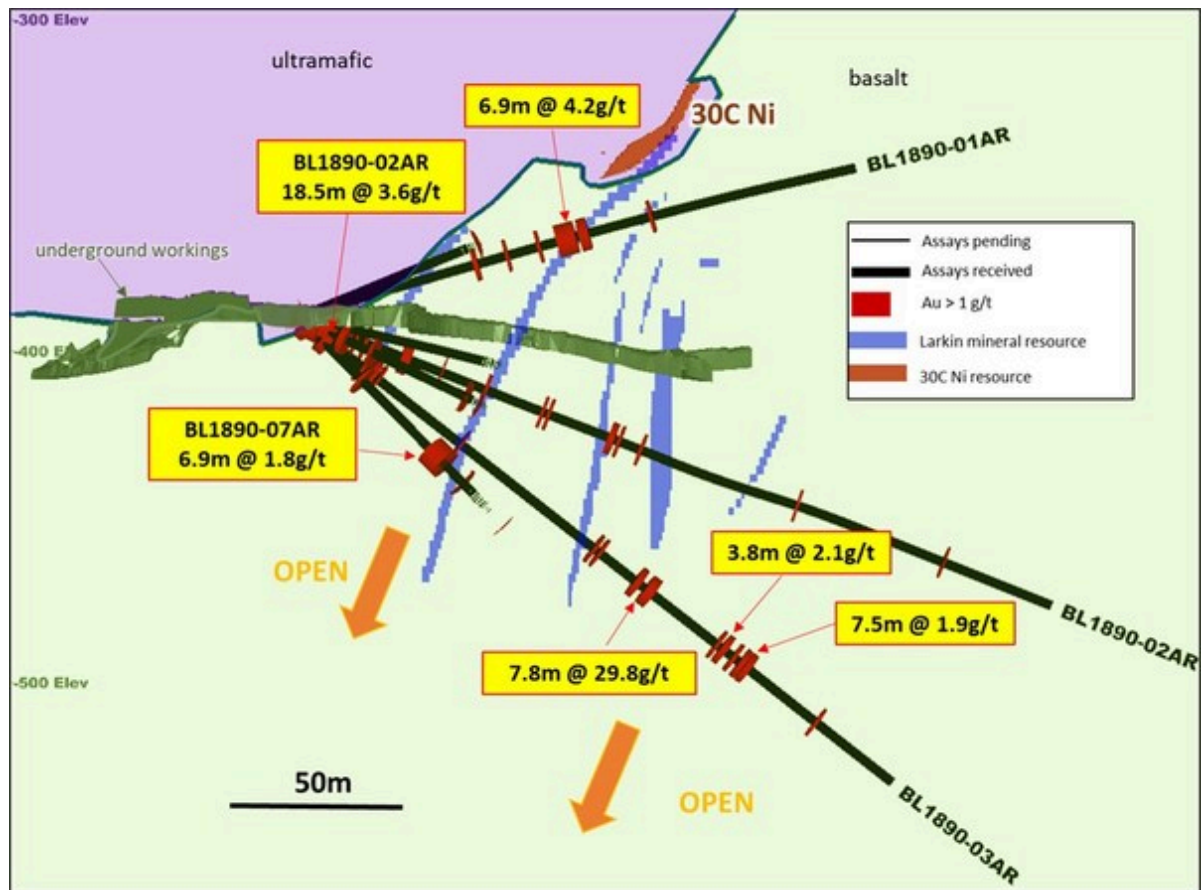

- **29.8 g/t over 7.8 metres** (BL1890-03AR)
- **8.7 g/t over 4.0 metres** (BL1890-13AR)
- **4.2 g/t over 6.9 metres** (BL1890-01AR)

1.Interval lengths are estimated true widths

Results from the drilling program support and extend the mineralization already defined by the current Larkin Mineral Resource and provide strong encouragement for potential high-grade mineralization to continue at depth, over 120 metres below the ultramafic / basalt contact.

Paul Andre Huet, Chairman & CEO, commented:

"I am very pleased with the latest set of drill results at Beta Hunt which continue to demonstrate the tremendous high-grade potential of this underground mine."

"While our mined grades are consistent with our 2.6 g/t Mineral Reserve, we often encounter higher grade pockets such

as those reported in today's announcement, with one returning almost an ounce per tonne intercept – an exciting result in any gold mine.

“Success in our newest addition to Mineral Resources at Beta Hunt's Larkin zone continues to reinforce both our robust near term growth plan and the long term ambitions at Beta Hunt.

“The new drilling was aimed at upgrading and extending the known Larkin Mineral Resource and was successful on both counts. *It is particularly exciting that an intercept of 29.8 g/t over 7.8 metres, the best Larkin result to-date, was drilled 20 metres beyond the existing Mineral Resource and 120 metres below the ultramafic/basalt contact, indicating potential higher grade areas at depth in the zone.*

“Over the past 24 months, we have reported results that not only support the extension and upgrade potential of the Western Flanks and A Zone existing Mineral Resources, but also the potential for additional gold Mineral Resources associated with mineralization intersected in drilling at Western Flanks North, A Zone North, Fletcher, Gamma and the newly discovered Sorrenson Zone.

“Our decision to significantly expand our drilling budget since 2020 has been well rewarded and we look forward to continued success across the very large areas remaining to be drilled. Coupled with our renewed nickel exploration success at Beta Hunt, the low cost mining potential of our flagship mine continues to develop.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
