Maple Gold Reports Final Assay Results at Eagle

Maple Gold Mines (TSX.V: MGM)

Reported results from the final 20% of assays that were received from the previously completed 14,720 metres of drilling at the 100%-controlled Eagle Mine Property.

Maple Gold Reports Final Assay Results at Eagle and Completes More than 7,000 Metres of Deep Drilling at Telbel

Vancouver, British Columbia–(Newsfile Corp. – April 6, 2023) – **Maple Gold Mines Ltd. (TSX.V: MGM) (OTCQB: MGMLF) (FSE: M3G)** ("**Maple Gold**" or the "**Company**") is pleased to report results from the final 20% of assays that were received from the previously completed 14,720 metres ("m") of drilling at the 100%-controlled Eagle Mine Property ("Eagle").

The Company is also pleased to report that more than 7,000 m have now been completed (6,000 m planned) at the Telbel Mine area of the Joutel Project, which is held by a 50/50 joint venture (the "JV") between the Company and Agnico Eagle Gold Mines Limited.

The final batch of assays received from completed drilling at Eagle correspond to approximately 3,000 m of the 14,720 m drilled to-date.

The results continue to demonstrate continuity of mineralization and the potential significance of the multiple horizons/splays to the northwest of the former Eagle mine.

Highlights include:

- EM-22-008W intersected 6.2 grams per tonne (“g/t”) gold (“Au”) over 2.0 m in the South Mine Horizon (“SMH”) and 4.2 g/t Au over 3.9 m in sediments further downhole.
- EM-22-006W1 intersected multiple intercepts including 6.5 g/t Au over 1.2 m and 2.0 g/t Au over 3.0 m in the SMH and 2.3 g/t Au over 3.0 m at the microgabbro/Harricana sediment contact further downhole.
- EM-22-006W4 intersected 4.0 g/t Au over 0.7 m within a broader 1.1 g/t Au over 14.2 m intercept within the SMH.
- EM-22-017A intersected 2.9 g/t Au over 2.0 m and additional lower grade over broader near-surface intervals (1.0 g/t Au over 15.5 m from 93 m downhole).

Matthew Hornor, CEO of Maple Gold stated

“We have come along way since first consolidating the Joutel ground into our JV property package.

“All of our exploration and drilling work along the past-producing Eagle-Telbel mine trend is designed with the aim of defining high-grade zones of gold mineralization and additional mineral resources to complement the established potentially bulk-mineable resource present at Douay.

“Our first year of drilling at Eagle has more than covered our exploration spending commitments to earn a 100% interest and we are now in position to finalize our compilation and model updates to support focused follow-up drilling in areas we believe have the most promise to deliver additional high-

quality ounces.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire

investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
