City Investors Circle Market Review for March 2024 Published

City Investors Circle – London

The Market Review for March 2024 has been published.

The company highlight features **Galiano Gold**, a gold production company located in Ghana, West Africa.

Watchlist companies reporting significant news in March were **Calidus Resources, Karora Resources, and Orla Mining.**

The main news is the rise in the price of gold during March, and the news that this has pushed up the price of producing miners, and in time this will flow through to the junior explorers when the priducers are more fully valued.

The big hope is that investors become excited about the mining sector again and flock back, as trading volumes have been low, and the record price of gold may act as the long awaited catalyst to attract and excite investors once again.

The top performing stocks this month were **Galiano Gold** in the gold producers, and **Thesis Gold** in the exploration juniors.
