City Investors Circle Market Review October 2025

City Investors Circle has published the Market Review for October 2025

The highlighted company is Heliostar Metals (TSX.V: HSTR).

After a volatile month for the price of gold, our Tier 1 watchlist companies rose an average of 3% with seven risers and one even out of ten companies. **Galiano Gold** was the highest riser, and we feature the significant news from companies on our watchlists.

Both **Orla Mining** and **G Mining Ventures** reported strong production and revenue during their Q3 reporting period.

Additions to the watchlist Tier 2 are **Erdene Resource Development**, **Silver Storm Mining**, and **Western Gold Resources**.

Aris Mining was moved into the Tier 1 watchlist after performing well and growing production in Colombia.

i-80 Gold was deleted from the watchlists after not performing as I had hoped. **Minera Alamos** is under review for deletion for the same reason.

Almost all metal prices increased during October, despite the volatility. **Gold** and **silver** rose 6%, 8% in UK pounds sterling terms, after the pound fell v the US dollar. This is a good reason for having investments quoted in other currencies, given the current lack of faith in the Labour government.

Copper reached an all-time high price of \$5.15, and **tungsten** remains the metal that has increased in price the most in 2025 so far, up 95% year to date.

We feature top slicing or trimming from companies that have performed well but growth has slowed as they mature and investing in newer exciting companies that look to enter an exciting growth phase.
