Meeka Metals Murchison Development Update – March 2025

Meeka Metals Limited (ASX: MEK) (“Meeka” or the “Company”) is pleased to provide an update of the significant progress made during March 2025.

Major milestone achieved at the process plant with installation of the larger 750kW ball mill completed and open pit production accelerating at the Murchison Gold Project (“Murchison”).

- Expansion works on the CIL gold processing plant continued

to progress at

pace during March, including:

- o Installation of the larger 750kW ball mill;
- o Installation of the cyclone cluster on the cyclone structure; and
- o Installation of the top of tank steel work on the new leach and adsorption tanks.

- Open pit production accelerated during March, achieving ~20kBCM daily

material movement toward the end of the month. First ore is expected in April

2025.

- Commissioning of the open pit heavy vehicle workshop was completed in

March with all open pit support infrastructure now operational.

- Access to the high-grade Andy Well underground mine was established and

dewatering infrastructure installed. Installation of mine services to continue

during the June 2025 quarter with underground ore development and

diamond drilling commencing mid-2025.

**Commenting on the progress, Meeka's
Managing Director Tim Davidson
said:**

"We achieved a major mil in addition to most of the

structural work and various other key deliverables for the expanded processing plant now complete or nearing completion.

“It was also pleasing to see the open pit team accelerate in line with plan during March. By month's end the team were achieving a production rate equivalent to ~600kBCM per month.

“We also established access to the high-grade Andy Well underground mine during March and the ground and ground support are in good condition.

“Primary dewatering infrastructure has been installed and underground activities will ramp up over the coming months.”
