Minera Alamos earns \$5.6-million in 2022

2023-05-02 10:08 ET – News Release

Mr. Doug Ramshaw reports

MINERA ALAMOS REPORTS 2022 YEAR END FINANCIALS AND OPERATIONS UPDATE

Minera Alamos Inc. (TSX.V: MAI) has provided selected financial highlights from its 2022 annual financial statements and MD&A (management's discussion and analysis) filed on SEDAR on May 1, 2023.

2022 Operational Highlights

Total gold ounces recovered and sold in 2022 was 11,667 ounces from the Santana Project with inventory on the pad of 6,950 ounces as at December 31, 2022.

Primary surface rights agreements were concluded for the development of the Cerro de Oro gold project in northern Zacatecas, Mexico. The agreements allowed the Company to complete the documentation required to formally proceed with the Cerro de Oro permitting process.

The Company announced the positive results of an independent Preliminary Economic Assessment (“PEA”) for the Cerro de Oro Project in Zacatecas, Mexico.

2023 Operational Outlook

At Santana, as outlined in January 2023 (see operation update news release dated January 31st, 2023), the Company has given priority to the acceleration of some waste removal (“pre-stripping”) activities during early 2023 in advance of the planned transition of mining activities at the Nicho main zone.

The Company is continuing to utilize existing pad space while waiting for the pending permit amendment approvals. During this period of waste mining, gold production slowed, as expected, but the Company still maintained some mining and leaching activities and sold 1,295 ounces of gold in Q1.

The Company is anticipating an increase in mining, stacking and leaching activities in Q2 relative to Q1 utilizing the existing pad capacity at Santana. Updated operational plans have identified approximately 4000 ounces of gold from the Nicho Norte pit which are available for short term mining activities in the coming quarter ahead of the planned expansion of mining operations.

The planned pad expansion that would triple pad capacity will allow efficient loading of the existing pad alongside the expanded pad area.

Exploration drilling of the Benjamin Hill, Benjamin West and the Zata zones is currently ongoing, the results of which will allow for the longer term site planning at Santana.

In April 2023, the Company completed the documentation necessary to formally proceed with the Cerro de Oro permitting process. The management of the remainder of the permit process will now be handled by the Company's permitting consultants. Concurrent with the permitting, the Company is planning additional drilling and metallurgical work that will inform the final operational plan for the proposed mine.

Discussions continue with a number of interested lending partners to provide the modest capital funding requirements for the development of the Cerro de Oro mine, with the goal of a definitive lending package by mid-year, which could be drawn down for construction purposes upon final receipt of permits.

City Investors Circle is based in

the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
