Minerals 260 – Bullabulling Gold Project Works Approval Granted

Licence granted to facilitate construction of the processing plant, power infrastructure and tailings storage facility.

Highlights

• Minerals 260’s Works Approval for its 100%-owned 6.2Moz

Bullabulling Gold Project has been granted by the Western Australian Department of Water and Environmental Regulation.

• The Works Approval enables the development of key facilities, such as the processing plant, power infrastructure and tailings storage facility, subject to receipt of the Native Vegetation Clearance Permit and the Mine Development and Closure Proposal.

• Remaining approvals for the Project are under assessment through the Western Australian State approvals pathway and are on track to support the Board's Final Investment Decision ("FID") in Q1 CY2027.

Management Comment

Minerals 260 Managing Director, Luke McFadyen, said:

"The granting of the Works Approval is yet another significant milestone for the development of the Bullabulling Gold Project.

"It reflects another step of the continued de-risking the Company is focussed on to achieve our first production target in 2028.

"Receipt of this key approval ahead of FID further derisks the development schedule.

“We look forward to receiving the remaining approvals for the Project to support FID in the first quarter of 2027.”
