Mining Review 11th February 2024

Another week where commodity and most mining share prices drifted.

Colonial Coal ended the week very strongly, on high volume, without any known news, so this is certainly a situation to follow next week.

Some good drill results reported from our watchlist companies this week, with **Calibre Mining** reporting a significant discovery with potential to increase the resources at their Limon Mine in Nicaragua.

All the news from our watchlist companies this week involved good drill results, yet in this market prices continue to drift, and one wonders what has to be announced to make investors in the sector excited again?
