## Mining Review 12th October 2025

**Orla Mining** announced a potential significant discovery at Musselwhite.

**Capricorn Metals** and **Erdene Resource Development** both announced updated resources in a generally positive week for mining stocks.

--

The price of **gold** holding above \$4,000 and **silver** reaching an all time high kept the price of most producing precious metal mining companies near their recent highs. Some Australian companies lost around 5% in Friday trading due to a fall in the gold price, only for that to reverse later in the day, benefitting TSX listed stocks.

The price of **copper** remains around recent highs, and **tungsten** is still strong due to its military applications.

--

My portfolio suffered a bit of pain this past week as some mining stocks, even gold producers, fell away badly after the gold price appeared to top out and fall back.

The late rally past \$4,000 will, hopefully, mean a strong day on the ASX on Monday, and that may restore some of the Friday losses on that market. My portfolio was at an all-time high just before the pullback.

I met management from **Stallion Uranium** and made a small investment afterwards as the company are well funded, have prospective ground in the Athabasca Basin, and have a drill program scheduled to commence in January.
