## City Investors Circle Mining Review 16th March 2025

Gold briefly touched \$3,000 before retracing slightly, as the US continues to suck in gold from around the world. One theory is this is because US banks have to comply with Basel 3 by mid-year, and are importing gold to cover bullion they leased out years ago.

Most precious and base metals ended the week higher after yet another positive stimulus message from the Chinese government.

## Mining Review

A busy week with **Awale Resources**, **Cabral Gold**, **Meeka Metals** and **Ora Banda Mining** all releasing positive drill results.

**Awale** have recorded some of the highest grades in Africa in the last year and high-grade discoveries continue to be made on very prospective land in the Ivory Coast.

**Cabral** have been quiet for a while but have now announced some new gold discoveries that boosted the share price. CEO Alan Carter has a large personal investment here bought in the market.

**Meeka Metals**, on the cusp of initial production in Western Australia announced a new gold discovery.

**Ora Banda Mining**, also in Western Australia, announced an “outstanding” discovery as they expand production and exploration at their Daveyhurst project.
