City Investors Circle – Mining Review 20th November 2022

Gold and silver had another poor week on the back of the US Administration and FED spokespeople continually advocating more rate rises for longer in response to market rumours that the pivot could be imminent.

It looks like a concerted campaign by those that command authority in the media, It's almost as if they're deliberately trying to suppress / crash the markets, with gold, crypto, and stocks all falling, due to the Treasury Bond yield rising once again.

US T Bonds remain inverted.

Lithium carbonate prices fell in China this week on a bearish demand outlook for EV's due to the economic contraction there. This follows a prolonged increase in prices over the last year.

Turning to companies we follow, **Cyprium Metals**, **i-80 Gold, Neometals**, and **O3 Mining** all reported news this week. The full releases can be read by clicking the links below;
