# City Investors Circle Mining Review 21st May 2023

**Neometals** and **Calidus Resources** published positive updates in a week devoid of news of substance.

Most metals also had a poor week, but **lithium** rose strongly and looks to be on the way back up after a terrible year so far.

**News from companies on our watchlist** was sparse this week, and can be found by clicking the links below.

We are moving into the summer doldrums so we may see a decline in share prices and the price of gold, although the latter is fluctuating on FED interest related news rather than the traditionally slow summer months.
