Mining Review 26th November 2023

i-80 Gold announced high grade results from their Cove Gold Project in an otherwise quiet week for news from our watchlist stocks.

The recent Global Mining Finance Conference was busy as it lead into the London Mining fortnight, with other conferences to follow.

It's the time of year that I find myself looking at my portfolio and the site's watchlists, and having a clear out of stocks I no longer have the same warm feeling for that I once did, mainly because the story has changed, or delays have become interminable.

My first sale is **Minera Alamos**, a stock that has disappointed from production startup. The company went into production without a 43-101, but with an experienced team constructing a low cost mine on time and on budget, it augered well.

Sadly production startup has not gone well with a lack of rain being blamed for poor production figures that have resulted in poor financial performance thus far, although there are hopes that this year's will be better.

On top of that they are waiting for the permit to construct the Cerro de Oro open pit mine, in a race against time due to the Mexican election early next year.

I look at it this way, if Minera improve things I can always buy back in the future, but for now I feel more comfortable out of the stock.

Another stock I'm looking closely at is **Argosy Minerals**, with a falling lithium price and little production news out of Argentina. I may well cut my losses here in the next few days.

I am now turning my attention to the watchlist, where I'm going to weed out a few non performers, with **Tinka Resources**

on that list already.

I'm looking for new companies likely to have plenty of newsflow and well funded to replace them. **G Mining Ventures** is one I am going to add.
