Gold and copper had a good week, tin had an exceptional week.

Gold is holding up well despite higher interest rates, but may possibly have topped out for now.

The renewed optimism in China, and protests in Peru, are driving the copper and iron ore prices. Warehouse stocks of some key metals are lower than they would normally be, suggesting a squeeze may occur at some point driving prices much higher.

In Peru, the world's second largest copper producer, 30% of copper production is currently off line due to protests.
