City Investors Circle Mining Review 29th October 2023

Gold is over $2,000 as the Gaza situation spirals out of control and the threat of a wider regional conflict increases.

The week is starting with reports of rocket attacks in Iraq, Syria, and Yemen, as well as the worsening crisis in Gaza where Israeli forces are now entering the strip. With US forces now being targeted things look poised to go from bad to worse.

It's hard to see this stopping and the news appears ready to worsen by the day unless some sensible heads prevail, and that's looking unlikely with the US and Isreal ignoring the UN's pleas for a ceasefire.

Ascot Resources, Calidus Resources, and Marathon Gold released excellent news this week.

Many junior miners continue to fall despite the rising price of precious metals (but not base metals), and one wonders how much further they can fall as valuations are starting to look ridiculus compared to historical norms.

Three of our watchlist companies announced good news, yet only Calidus' price increased, disappointing for holders in those other companies.

It's interesting that with a record price of gold in Australian dollar terms, and Calidue now producing at quite a healthy margin, and due to fall considerably, the higher share price came as a result of the annoumcement of the SQM investment news in Pirra Lithium.
