## Mining Review 30th July 2023

The week was noteworthy because of the strange story of Goldshore, the 43-101 comments accidentally uploaded to SEDAR, and the 'disappearing' of Moss Lake.

Other companies releasing news included Impact Minerals, Calidus Resources, Cornish Metals, and Karora Resources.

## Mining Review 30th July 2023

Despite the US increasing rates again, gold held strongly, as did the base metals mostly. Silver had a poor week, as did

lithium.

The most newsworthy item concerned **Goldshore**, and the disappearance of Moss Lake! One minute it's in their presentations, and the project is called Moss lake, the next they have requested the lake's removal from maps of the project, and the project has been renamed Moss Gold!

Clearly the lake is an issue, and management have taken steps to remove it from view, which is a red flag for me.

*Upon reading this I sold all my stock in the company, as trust has now gone. I was already aware of the lake and happy to invest, but this trying to airbrush it out smacks of desperation in my opinion, and my trust in management has been lost.*
