City Investors Circle Mining Review 5th May 2024

Gold and **silver** traded downwards this week as war fears receded in the Middle East.

Base metals also took a breather after some sharp gains recently, and uncertainty about the strength of the Chinese economy.

Uranium spiked on news that the US were going to sanction supplies from Russia, although that is a few years away yet as they have to build out their own infrastructure first. One wonders what would happen if the Russians banned exports to the US before the USA is ready to ban imports from Russia?

My guess is that won't happen as the Russian government probably needs the revenue to fund their Special Military Operation in Ukraine, but you never know.
