## Mining Review 4th September 2022

Another poor week for gold and all metals as the US dollar again rises on interest rate hike anticipation. The price of gold in British pounds is up 3% in a month, due to the weakness of the pound. Uranium, up 8% in a week was the sole positive.

## City Investors Circle Mining Review 4th September 2022

– Another poor week for **gold** and all metals as the US dollar again rises on interest rate hike anticipation.

The price of **gold** in British pounds is up 3% in a month, due to the weakness of the pound.

Uranium, up 8% in a week was the sole positive.

## Companies from our watchlist in the news this week

**Cornish Metals** and **Kootenay Silver** reported good drill results in an otherwise quiet week.

**Karora Resources** is pressure after recent poor results, and if not already in bargain basement territory must surely be close? Karora is down 62% from a high of C\$7.45, which admittedly was looking a bit frothy, but now it looks like the complete opposite.

**Wesdome** is out of favour too, again for poor performance, although it posted a recovery on Friday.
