O3 Mining Takes A Major Step In Environmental Permitting Of Marban Engineering Project

TSXV:OIII | OTCQX:OIIIF – O3 Mining

TORONTO, Nov. 22, 2022 /CNW/ – **O3 Mining Inc. (TSXV: OIII)** (OTCQX: OIIIF) ("O3 Mining" or the "Corporation") is pleased to announce it has filed the Initial Project Description for the Marban Engineering project with the Impact Assessment Agency of Canada ("IAAC") at the federal level and the Project Notice with the Ministère de l'Environnement, de la Lutte contre les Changements Climatiques, de la Faune et des Parcs ("MELCCFP") at the provincial level.

The Marban Engineering project will require approval by both levels of government through the Environmental and Social Impact Assessments ("ESIA") process stipulated by the local regulations.

The ESIA will determine the environmental, social, and economic impacts of the Marban Engineering project. As part of this process, both governments will consult with a broad range of stakeholders including host communities, indigenous communities, non-governmental organizations, and others.

O3 Mining President and CEO, Mr. Jose Vizquerra commented;

“We are very pleased to be achieving this important milestone in bringing Marban Engineering to production.

“We believe that the rigorous regulatory framework in place in Québec and Canada enables the construction and operation of mines with the highest environmental and social standards in the world.

“Reaching zero impact is impossible but building a mine responsibly and minimizing its impact is essential. Our extensive work upstream to filing the Marban project with the governmental authorities is a testament to our commitment to ESG.”
