

Ora Banda Drilling Discovers New Sapphire Trend

Ora Banda Mining (ASX: OBM)

Provided an update on its continued exploration success at its high-grade Little Gem Prospect.

The area initially consisted of the Little Gem Prospect on the Little Gem Trend, presenting as a multi-lode system that extended from Riverina to Sunraysia as a strike of 7.5 kilometres.

ORA BANDA DRILLING EXPANDS LITTLE GEM NEW “SAPPHIRE” TREND DISCOVERED

Ora Banda Mining Limited (ASX: OBM) (Ora Banda”, Company”) is pleased to provide an update on its continued exploration success at its high-grade Little Gem Prospect.

The area initially consisted of the Little Gem Prospect on the Little Gem Trend, presenting as a multi-lode system that extended from Riverina to Sunraysia as a strike of 7.5 kilometres .

The recent discovery of the Sapphire Trend, located 200m east of the Little Gem Trend, has expanded the exploration window for further drilling and potential mineralisation.

Highlights:

- Latest drilling has expanded the Little Gem Prospect’s mineralised envelope to more than 1,500 metres of strike and 750 metres vertically below surface , with mineralisation open in all directions.
- Exploration drilling has discovered the Sapphire Trend (200 metres east of Little Gem Trend) which presents as a new potential lode system.
- Sapphire Trend runs parallel to the Little Gem Trend and is

yet to be specifically targeted in exploration programs, with new results pointing to the growing significance of its mineralisation potential

- Drilling at Sunraysia Prospect (3km south of Little Gem Prospect) on the Little Gem Trend has identified high-grade lode s (see Figures 3 & 4)
- Ora Banda expects to deliver a Maiden Mineral Resource Estimate on Little Gem during second half of 2026 . Drilling remains ongoing .
- Recent significant intersections include:

Little Gem Prospect:

- o 10.0m @ 6.9 g/t Inc. 2.0m @ 26.9 g/t Little Gem Trend
- o 6.0m @ 11.3 g/t Inc. 1.0m @ 60.0 g/t Little Gem Trend
- o 20.1m @ 2.9 g/t Inc. 0.8m @ 11.3 g/t Little Gem Trend
- o 16.0m @ 3.0 g/t Inc. 1.0m @ 17.2 g/t Little Gem Trend
- o 14.9m @ 3.2 g/t Inc. 0.9m @ 11.0 g/t Little Gem Trend

Little Gem Trend

Drilling has expanded the mineralised envelope at the Little Gem prospect to over 1,500 metres of strike and 750 metres below surface, with mineralisation continuing to remain open at depth and along strike .

Drilling at the Sunraysia Prospect (3km south of the Little Gem Prospect), along this same Little Gem Trend also highlighted the ongoing growth potential of the broader region, with intercepts identifying high-grade mineralisation including intersections of 9.0m @ 4.1 g/t (inc. 2.0m @ 14.5 g/t) and 3.0m @ 9.3 g/t (inc. 1.0m @ 21.2 g/t).

This drilling has added a further 800 metres of prospective strike to the Little Gem Trend with the mineralisation yet to be closed to the south.

Sapphire Trend

Step-out drilling has discovered the Sapphire Trend located 200m east of Little Gem with intersections including 18.0m @ 2.7 g/t, 10.2m @ 4.2 g/t and 11.5m @ 2.8 g/t.

The Sapphire Trend runs parallel to the Little Gem Trend and will be a targeted area for the ongoing exploration drilling programs in this region.

Both the Little Gem and Sapphire trend are broad north-south striking mineralised packages that are composed of multiple sub-parallel and sub-vertical gold lodes. The mineralisation geometry remains predictable as the drill spacing reduces and macro high grade plunges identified in the drill core mimic those seen at Riverina, approximately 30 degrees to the south.

With +150 drill holes now completed across the Little Gem Prospect , drilling is continuing and the company is anticipating delivery of a Maiden Mineral Resource during the second half of calendar year 2026.

Ora Banda's Managing Director, Luke Creagh, said:

"These outstanding drill results continue to confirm the

scale and quality of the Little Gem system with recent gains from exploration step-outs at the Sapphire Trend and Sunraysia Prospect demonstrating the outstanding potential of this area.

“The work we’ve been doing is a reminder of the enormous organic growth potential of our ground, and as part of this, we very much look forward to delivering a maiden Mineral Resource Estimate for Little Gem in the second half of CY26.”

**City Investors Circle is based in the financial district in
the City of London**

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
