

Orla Mining Discovers New Style of Sulphide Mineralization at Camino Rojo

[Orla Mining Ltd. \(TSX: OLA\)](#)

Provided an update on its exploration activities on the extension of the Camino Rojo deposit in the second half of 2023. These recent exploration results emphasize that the Camino Rojo deposit remains open and has substantial upside potential.

Orla Mining Discovers New Style of Sulphide Mineralization at Camino Rojo Extending 0.5km Beyond Current Resources

***4.86 g/t Au, 43.6g/t Ag, 1.27% Zn, 0.44% Pb, 0.09% Cu, (6.25 g/t AuEq) over 11.7 m,
incl. 28.6 g/t Au, 224g/t Ag, 4.35% Zn, 2.89% Pb, 0.29% Cu, (34.4 g/t AuEq) over 1.7 m
10.3 g/t Au, 37.8 g/t Ag, 3.81% Zn, 0.08% Pb, 0.12% Cu (12.7 g/t AuEq) over 5.6 m,
incl. 17.8 g/t Au, 71.0 g/t Ag, 7.19% Zn, 0.15% Pb, 0.17% Cu (22.3 g/t AuEq) over 2.9 m***

Vancouver, BC – February 22, 2024 – **Orla Mining Ltd.** (TSX: OLA; NYSE: ORLA) (“Orla” or the “Company”) is pleased to provide an update on its exploration activities on the extension of the Camino Rojo deposit (“Camino Rojo Extension”) in the second half of 2023. These recent exploration results emphasize that the Camino Rojo deposit remains open and has substantial upside potential.

Camino Rojo Extension (Mexico) Summary

Historical and recent exploration drilling targeted lower stratigraphy, beneath the existing resources. In 2023, a drill section was completed 450 metres down-plunge from the current mineral resources and revealed significant intersections of high-grade polymetallic (Au-Ag-Zn) semi-massive to massive replacement-style mineralization (Figure 1). Recent drilling shows that the Camino Rojo mineral system extends beyond the current mineral resource envelope, presenting a considerable opportunity for resource expansion.

- **2023 Program:** The 2023 Camino Rojo Extension drill program involved extending selected infill drillholes beyond the currently defined mineral resources and completing a down-plunge drill section to explore the distal extension into lower stratigraphy; 2,607 metres of drilling across four drill holes. Drill results reported in this press release have returned mineralized intercepts up to 450 metres down plunge of the existing open pit mineral resource boundaries.
- **Initial Metallurgy:** The initial carbon-in-leach (CIL)

bottle roll testing within the Camino Rojo Extension on material from CRSX-22-07 and CRSX-22-08C resulted in impressive gold recoveries between 81-96%. Flotation testing on the CRSX-22-07 material produced a gold concentrate with 85-88% gold recovery and a zinc concentrate with zinc grades of 52% and over 85% zinc recovery, for the polymetallic replacement-style mineralization.

- 2024 Program: The Company plans to complete a 30,000-metre drill program in 2024 with two objectives: 1) to infill the down-plunge geometry, continuity, and endowment potential of mineralization along the projection of the Dike Zone, and 2) to step out broadly and further assess the extensive upside potential of this open mineralized system.

Sylvain Guerard, Orla Mining Senior Vice President, Exploration

“The recent drilling results have added a new dimension to our near-mine exploration program, unveiling an exciting new mineralization style in previously disregarded host rocks.

“With promising initial metallurgical results and substantial upside extension potential, we are committed to driving Orla’s 2024 exploration efforts towards expansion drilling as we look to unlock the full potential of the growing Camino Rojo deposit.” –

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
