Orla Mining Files Updated Technical Report for South Railroad Gold Project, in Nevada

Vancouver, BC – March 2, 2026 – **Orla Mining Ltd.** (TSX: OLA; NYSE: ORLA) ("Orla" or the "Company") is pleased to announce that the Company has filed an updated independent technical report for South Railroad (the "South Railroad Technical Report"), which was prepared in accordance with National Instrument ("NI") 43-101.

The South Railroad Gold Project ("South Railroad" or the "Project") is located in Nevada, USA, and forms a part of the Company's larger South Carlin Complex ("South Carlin") land

package on the prolific Carlin Trend.

The South Railroad Technical Report now includes a construction-ready feasibility study backed by advanced engineering and expanded metallurgical testing. Key enhancements include a two-stage crushing circuit for improved recoveries and a comprehensive execution plan to support the project's transition into development.

The detailed technical report is now available on SEDAR+ and EDGAR under the Company's profile at www.sedarplus.ca and www.sec.gov, respectively. The technical report is now also available on Orla's website at www.orlamining.com.

Orla is currently transitioning to the execution phase, focusing on detailed engineering, construction readiness, and long-lead procurement. Full construction is expected to commence in mid-2026, pending the receipt of final project permits. The development is expected to be funded through operating cash flow and cash on hand. For further details, please refer to the summary highlights in the January 15, 2026, news release.
