

# Orla Mining Drills Oxide Mineralization at South Railroad

**Orla Mining (TSX: OLA)**

Provided an update on its exploration activities at the South Railroad Project in H2 2023.

This news release presents the first of two updates from the 2023 infill and extension drilling, totaling seven drillholes and representing 2,508 m.

## Orla Mining Drills Oxide Mineralization Outside Projected Open Pits at South Railroad Project in Nevada

***Pinion: 112.7m at 0.72 g/t Au (oxide)***

***Dark Star: 36.6m at 3.53 g/t Au, including 19.8m at 5.23 g/t Au (oxide)***

Vancouver, BC – March 7, 2024 – **Orla Mining Ltd. (TSX: OLA; NYSE: ORLA)** (“Orla” or the “Company”) is pleased to provide an update on its exploration activities at the South Railroad Project in the second half of 2023.

This news release presents the first of two updates from the

2023 infill and extension drilling, totaling seven drillholes and representing 2,508 metres.

Drilling at South Railroad in 2023 totalled 14,695 metres and additional results from other exploration targets will be shared in a subsequent update.

## Highlights

- Potential expansion of resources at Pinion and Dark Star deposits through new oxide intersections in step-out drilling:
  - Pinion: **0.72 g/t Au over 112.7 metres** (oxide)
  - Dark Star: **3.53 g/t Au over 36.6 metres** (oxide)
- Successful infilling and metallurgical drilling with confirmation of modeled grade, continuity of mineralization, via infill drill program.
  - Intersection includes **2.20 g/t Au over 163.1 metres** (oxide) and **2.50 g/t Au over 88.1 metres** (oxide).

## *Sylvain Guerard, Orla's SVP Exploration stated,*

*"Since acquiring the South Railroad project in August 2022, Orla has made substantial progress in near-deposit exploration, satellite deposit testing, and expanding our land position along the Carlin Trend.*

*"The recent positive drill results outside the projected open*

*pits highlight the project's low exploration maturity and significant growth potential. "*

*In 2024, we will focus on expanding resources at existing deposits and continuing exploration across the property, which could soon be expanded to include Pony Creek".*

## 2023 Pinion and Dark Star Exploration Highlights

In 2023, Orla extended oxide-hosted gold mineralization at the Pinion and Dark Star deposits, with highly positive drill intersections outside of the projected open pits.

Meanwhile, infill drill results met expectations, confirming robust oxide mineralization within projected pits, while supplying material for new metallurgical column test work to further optimize the planned development project.

# City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)
