[PRESS RELEASES](#)

Rouyn-Noranda, Quebec – **Radisson Mining Resources Inc.** (TSX.V: RDS, OTC: RMRDF): (“Radisson” or the “Company”) is pleased to announce significant high-grade gold intercepts from the ongoing 130,000 m exploration drill program at its 100% owned O'Brien gold project located along the Larder-Lake-Cadillac Break (see [location map 1](#) and [location map 2](#)), halfway between Rouyn-Noranda and Val-d'Or in Quebec, Canada.

Key highlights

- Significant intercepts from exploration drilling along high-grade trend #0, representing the gap between current resources and the old O'Brien mine
 - 37.86 g/t Au over 2.00 m including 75.60 g/t Au over

- **1.00 m(0B-21-221W3)**
- **12.69 g/t Au over 3.50 m including 27.10 g/t Au over 1.60 m(0B-21-221W4)**
- **7.70 g/t Au over 2.00 m including 12.10 g/t Au over 1.00 m(0B-21-221W2)**
- Results include 3,376 m directional drill campaign comprising one pilot hole (0B-21-221) and 7 branches to drill test an area extending approximately 150 m along strike and between 75 m and 250 m depth below the limits of previous drilling in the area.
 - All of the holes intersected the targeted mineralized structures including 4 visible gold occurrences
 - Cash balance of approx. \$7.0M as of April 15, 2022

Radisson Mining Resources management comments

“The first batch of results from directional drilling completed as part of the ongoing program highlight the significant high-grade potential along trend #0, which represents the gap between currently defined resources along trend #1 and historically mined structures at the old O’Brien Mine.

“Drill results to date demonstrating the continuity of high-grade mineralization down to more than 750 m depth and up to 140 m west of current resources established on Trend #1.

“Drill results from this sector have been impressive, with 36

holes published so far of which 20 have intersected visible gold including 14 intercepts grading over 5 g/t Au.

“Overall, results from our ongoing 130,000 m drill program continue to impress with 195 holes published so far including 131 intercepts grading over 5 g/t Au.

“We look forward to obtaining additional results from all 5 high-grade trends established east of the old O’Brien mine as we continue to focus on expanding the footprint of the deposit.

“Results are pending from 50 holes of which 27 have intersected visible gold occurrences. Pending results include approximately 10,000 m (17 holes) from our deep directional drill program aimed at testing some of our most promising deeper targets along trend #1 and #2.

“Our deep directional drill continues to remain a key priority with two rigs systematically testing deeper high-grade mineralized structures along trend #1 and #2.

“We look forward to building momentum with significant news flow in the weeks and months ahead”

Rahul Paul, President and Chief Executive Officer.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
