Location	Queensland + New South Wales

Red River Resources Produce
an updated Corporate

Presentation.

Red River Resources (ASX: RVR)

Have published an updated corporate presentation reflecting the advancements the company has made during the last year or so.

The major achievement in 2020 was the restarting of gold production at the former producing Hillgrove Mine in New South Wales. This is little more than a year from acquiring the former mine to commencing production, a good achievement.

2020 also saw the acquisition of the Herberton silver – indium project in Queensland, where a drill campaign is planned for 2021.

Red River Resources also own the producing Thalanga copper – lead – zinc mine in Queensland, which produced revenue of A\$98.2 million last year. In addition, they are developing Lion Town, which will be their next mine in Queensland and allow RVR to maximise their mill at Thalanga.

It's going to be a busy year for RVR!
