Red River Resources Commences Thalanga drill program targeting gold.

Red River Resources Limited (ASX: RVR) is pleased to announce it has commenced a drilling program targeting gold in areas proximal to its Thalanga Operations in northern Queensland.

Red River produces zinc, copper and lead with gold and silver credits at its Thalanga Operations, where it is currently mining the Far West deposit. In addition, the Company is seeking to build its exposure to gold at Thalanga, applying for the Toomba and Don projects near Thalanga last year.

Thalanga Gold Drilling Program Underway

Highlights:

• Red River ramps up exploration activity at its Thalanga Operations following QLD wet season
• Thalanga gold RC drilling program underway at New Homestead, Toomba and Don targets – 33 reverse circulation (RC) holes planned
• Program aims to build RVR's gold inventory within trucking distance of Thalanga Operations
• New Homestead (10 holes for 958m) and Don (10 holes for 910m) completed
• Initial assays from this program expected by end March 2021.

Red River's reverse circulation (RC) drill program aims to identify high-grade bulk tonnage shoots of gold bearing quartz veins that can be trucked to and processed at Thalanga.

RVR designed 33 RC holes to be drilled at the New Homestead,

the Don and Toomba prospects to quickly assess the most prospective portions of lodes. To date, 10 RC drill holes (958 metres drilled) at the New Homestead prospect and 10 RC holes (910
metres drilled) at the Don prospect have been completed.

Initial assay results are expected in 3-4 weeks.

Red River Resources – Thalanga Gold RC Drilling Program

Previous exploration activity has identified multiple gold-bearing mesothermal quartz-sulphide vein systems primarily hosted in meta sediments at a number of prospects on ground held by RVR in close proximity to Thalanga. Red River designed a RC drilling program to test a number of these vein systems.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active

investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com for information.
