----------	---------------------------

Rumble Resources (ASX: RTR) has intersected a potential 9-kilometre-by-3-kilometre zinc-lead deposit during RC drilling at the Earraheedy Project's Sweetwater Trend, in Western Australia.

The newly-discovered deposit, named Mato Prospect, was outlined from the first five drill holes about 7.5 kilometres west of the Chinook Deposit.

This initial drill testing along with coincident Zn-Pb soil geochemistry has outlined a potential 9km long x 3km area, (Mato Prospect), that could host a significant new Zn-Pb sulphide deposit and add to the emerging world class base metal system at Earraheedy.
