SCANDIUM INTERNATIONAL  
MINING CORP.

2018-07-06 06:05 ET – News Release

Mr. George Putnam reports

DR. NIGEL RICKETTS RESIGNS FROM SCANDIUM INTERNATIONAL MINING CORP.

Dr. Nigel Ricketts, vice-president, project and marketing development, EMC Metals Australia Pty. Ltd., and vice-president, projects, Australia, for Scandium International Mining Corp., has resigned to pursue other opportunities.

Dr. Ricketts formally joined Scandium International as vice-president in June, 2016. During the past two years on staff with Scandium International, Dr. Ricketts has made important contributions to the company's flow sheet designs for the Nyngan scandium project and also to the marketing program for scandium and scandium-containing products. The company wishes Dr. Ricketts all success in his future endeavours.

#### **About Scandium International Mining Corp.**

The company is focused on developing its Nyngan scandium project, located in New South Wales, Australia, into the world's first scandium-only producing mine. The project has received all key approvals, including a mining lease, necessary to proceed with project construction.
