Silver Storm Conducts First Pour of Silver-Gold Doré at La Parrilla

Toronto, Ontario, June 11, 2026: **Silver Storm Mining Ltd.** (“Silver Storm” or the “Company”) (**TSX.V: SVRS** | OTCQX: SVRSF | FSE: SVR) is pleased to announce the first silver-gold doré pour at the Company’s 100%-owned La Parrilla Silver Mine Complex (“La Parrilla”) located in Durango State, Mexico.

The first pour was completed as part of the commissioning process of the oxide processing circuit at La Parrilla.

The Company now expects to be able to pour silver-gold doré on an ongoing basis.

Silver Storm commenced the commissioning of the oxide processing circuit in early June utilizing mineralized material from the open-pit oxide stockpile.

The oxide circuit will continue to process the material from the oxide stockpile until underground development in the San Marcos area of the mine starts to provide access to run-of-mine mineralized oxide material.

Commissioning of the 1,250 tonnes per day sulphide processing circuit is expected to commence in June 2026 with an estimated

ramp-up period of one month.

Greg McKenzie, President and CEO, stated,

“We are excited to reach this significant milestone less than three years after closing the acquisition of La Parrilla.

“I extend my congratulations to the Silver Storm team for delivering first silver safely and successfully. With the first pour completed, we have kicked off the restart of operations at La Parrilla, starting a new chapter for the Company and its stakeholders.”
